

## TEAR OFF FILMS FOR FLAT FRONTED RACE VISORS

### AVAILABLE IN CLEAR, LIGHT TINT AND DARK TINT

(TEAR OFFS ARE DESIGNED FOR USE ON FLAT FRONTED RACE VISORS AND WILL NOT FIT CORRECTLY TO 3-D CURVATURE VISORS)

Most BHV clear tear offs are produced in packets of 10 clear films and made from high grade polyester, certain models are produced from premium grade polycarbonate and due to the high cost of this material these models are sold in packets of 5 films only – the right hand column below details the quantity per packet. All tinted tear offs are produced from polyester and sold in packets of 5 only.

Bulk packets of clear tear offs are available on request and are available in 30 per pack (polyester) or 15 per pack (polycarbonate).

Product Code	Description	
T001	Tear Offs Universal fit including BHV Visors CLEAR	10 Films per Packet Inc. Fittings
